X...Alternatief 1

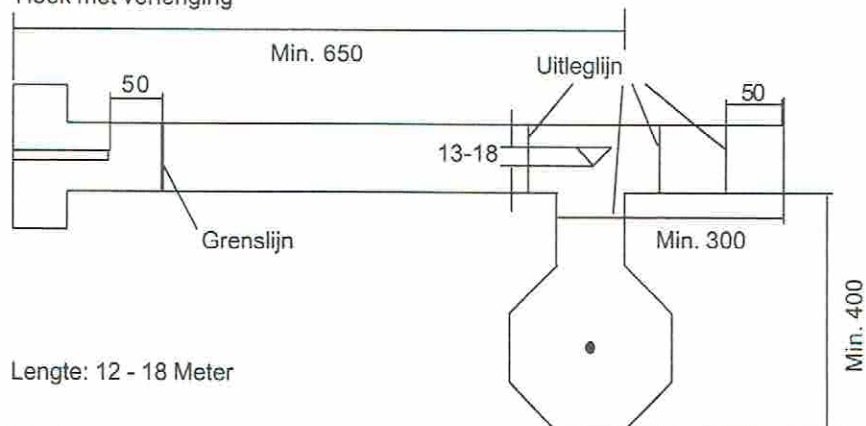

De speelrichting van de baan wijzigt na de lijn AB. Daardoor mogen ballen welke deze lijn gepasseerd zijn en tot rust zijn gekomen volgens de pijlen op de lijn CD uitgelegd worden.

Ballen, welke AB niet gepasseerd hebben, moeten op EF teruggelegd worden. Voor de hoekhindernis van deze baan kan ook een oploop gebouwd worden. De grenslijn is dan aan het einde van de oploop.
